COMPUTING WORKSHOPS

CARTOON CODING

Afterschool Club

Discover the most creative way to learn programming with Scratch Junior! In this workshop, learners will draw and customise their own cartoon characters, then design vibrant backgrounds filled with bikes, flowers, or anything else they can imagine. From there, you'll program your characters to soar through landscapes, script interactive conversations and even dribble a basketball to score a hoop!

With endless possibilities for creativity and fun, the most imaginative team will win an exciting prize. Don't miss out, sign up for Cartoon Coding today!

Don't just watch cartoons. Code them, design them and make them come alive!
